Environmental Infrastructure – Baton Rouge, Louisiana (Ascension, E. Baton Rouge and Livingston Parishes)

PROJECT AUTHORITY: Environmental Infrastructure Projects were authorized by the Omnibus appropriations Bill for the Dept.s of Labor, HHS and related agencies of December 21, 2000 (PL 106-554). The Bill amends WRDA 92, Section 219 (c) and related amendments in WRDA 99.

PROJECT SPONSORS: Ascension, E Baton Rouge, and Livingston Parishes, Louisiana

PROJECT LOCATION: Ascension, E Baton Rouge, and Livingston Parishes, Louisiana

PROJECT PURPOSE: The project will provide assistance to non-Federal interests for carrying out water-related environmental infrastructure and resource protection development including waste water treatment and related facilities and water supply, storage, treatment and distribution facilities. Assistance may be in the form of technical planning, design or construction.

PROJECT FEATURES: The City/Parish of Baton Rouge has indicated a need for Federal construction assistance for their \$491 million proposed Sanitary Sewer Overflow (SSO) Corrective Action Plan. The project includes upgraded conveyance, storage and treatment facilities in their waste water system. In Ascension Parish, P&S are currently underway for a comprehensive wastewater treatment plant. Additionally, studies to recommend a corrective action plan in unsecured portions of the Parish, to review the Parish facilities plan and develop a water and wastewater treatment department within the Parish. In Livingston Parish, a feasibility study to create a master plan addressing water and wastewater infrastructure. Plans and specifications are being produced for rehabilitation of sewerage pump stations and a new sewer force main.

PROJECT COST:

Total Project Cost	\$27,000,000
Total Federal Cost	\$20,000,000
Total Non-Federal Cost	\$ 7,000,000

PROJECT BUDGET/SCHEDULE: Unbudgeted in FY06. FY05 funds are being used to continue the planning, design and construction of various environmental infrastructure projects as designated by the local sponsors. Funds of \$3,207,602 have been allocated to date – Ascension (\$1,025,838), East Baton Rouge Parish (\$1,724,000) and Livingston Parish (\$878,864).

ISSUES: Federal funds are being pursued by local interests to advance design and construction. FY 2006 capability is \$500,000 for each parish. The capability would be used to assist East Baton Rouge parish to design a new sewer force main; Livingston in the design of a new sewer force main; Ascension parish to initiate construction of phase I of a regional waste water treatment plant and continue planning and design of ongoing work.
